FOR LOCAL BUSINESS OWNERS

Your Google Business Profile is your real homepage.

5 fixes I check first on every profile. Each one takes under 15 minutes.

SAKTHI · FOUNDER, ASTRA NEXORA

SWIPE →

01

Pick the exact primary category.

Choose the most specific one: “Dental clinic”, not “Health”. Then add 2–3 secondary categories for the other things you do.

WHY IT MATTERS

Your primary category has a big say in which searches you show up for.

02

List every service, in your customers' words.

Add each service with a 1–2 line description. Use the words people type: “root canal treatment”, not “endodontics”.

WHY IT MATTERS

Services help Google and customers understand exactly what you offer.

03

Add real photos, every month.

Your entrance, the inside, your team, your work. Skip stock photos; people can tell.

WHY IT MATTERS

A profile with recent, real photos looks open, active and trustworthy.

04

Reply to every review.

Within 48 hours. Thank them by name, mention the service, and handle bad reviews calmly and publicly.

WHY IT MATTERS

Future customers read your replies as much as the reviews.

05

Keep hours right. Post weekly.

Set special hours for holidays and festivals. Share an offer or update every week.

WHY IT MATTERS

Wrong hours lose a visit. Regular posts show the business is active.

Save this. Send it to a business owner.

1. Exact primary category
2. Every service, in customers' words
3. Real photos, every month
4. Reply to every review
5. Right hours, weekly posts

Which one has your business skipped? Tell me in the comments.
