LinkedIn December 2026 (personal profile)

Profile: Saktheeswaran S. Dec 1 (1-hour plan) and Dec 2 (Automation) are already scheduled.

Daily posts, Dec 3 – Dec 31 (29 posts), 9:30 AM IST. Typefully's free plan publishes only 10 a month, so Claude schedules 10 there and Sakthi posts the rest from the LinkedIn app.

Built on what worked in November: interactive A/B and "spot it" posts, copy-paste templates, AI topics, comparisons, real systems Sakthi built, and personal posts. No generic tip lists.

Every post: a hook in the first 2 lines, one idea, a question or action at the end, and a poster that makes sense in 3 seconds on a phone.

Rules: anything in [brackets] must be real. No client brand names. Post, then stay 30–60 minutes and reply to every comment.

1 · Fri 4 Dec: Spot the 5 mistakes

Poster text (a mock homepage on a laptop or phone, with these 5 mistakes clearly visible, no numbers or circles on them):

- CAN YOU SPOT ALL 5?
- **This homepage is losing customers.**
- Mock homepage shows: headline "Welcome to Our Website" · a big stock photo of two people shaking hands · a slider with dots (1 of 6) · no phone or WhatsApp button anywhere · footer "© 2019"
- Comment how many you found 👇

> 1. "Welcome to Our Website" says nothing. The headline should say what you do and where.
> 2. A stock handshake photo. Real photos of your place, team and work build trust.
> 3. A 6-slide slider. Most people never see slide 2, and sliders slow the page down.
> 4. No phone or WhatsApp button. Customers shouldn't have to search for how to contact you.

2 · Tue 8 Dec: 5 WhatsApp replies every business should save

Poster text (WhatsApp chat bubbles):

- COPY · PASTE · SAVE
- **5 WhatsApp replies every business should save**
- 01 · New enquiry: "Hi [Name]! Thanks for reaching out. I'm checking this now and will reply in 10 minutes."
- 02 · "How much?": "It depends on [factor]. Most customers pay between ₹[X] and ₹[Y]. Can I ask 2 quick questions to give you an exact price?"
- 03 · After hours: "Thanks for your message! We're closed now and open at [time]. We'll reply first thing."
- 04 · Quote follow-up: "Hi [Name], just checking if you had any questions about the quote. Happy to help."
- 05 · After the job: "Thank you for choosing us! If you were happy, a quick Google review would mean a lot: [link]"
- Save them as Quick Replies. Type "/" and send in 1 tap.
- Sakthi · Founder, Astra Nexora

CAPTION (COPY-PASTE)

Most enquiries aren't lost because of price.
They're lost because the reply came too late.

Here are 5 WhatsApp replies every business should save. Copy, paste, change the [brackets]. 👇

1. New enquiry
"Hi [Name]! Thanks for reaching out. I'm checking this now and will reply in 10 minutes."
→ An instant reply stops them from messaging your competitor.

2. "How much does it cost?"
"It depends on [factor]. Most customers pay between ₹[X] and ₹[Y]. Can I ask 2 quick questions to give you an exact price?"
→ Give a range, then start a conversation.

3. After hours
"Thanks for your message! We're closed now and open at [time]. We'll reply first thing."
→ Silence feels like rejection. A reply doesn't.

4. Quote follow-up
"Hi [Name], just checking if you had any questions about the quote. Happy to help."
→ One follow-up. Friendly, not pushy.

5. After the job
"Thank you for choosing us! If you were happy, a quick Google review would mean a lot: [link]"
→ Ask on the same day, while they're happy.

Save them as Quick Replies in WhatsApp Business: Settings → Business tools → Quick replies. Type "/" and send in one tap.

Save this post. Which reply does your business need most? 👇

3 · Fri 11 Dec: I asked ChatGPT to recommend a [service] in [city]

Do the test first: open ChatGPT, ask "Who is the best [service, e.g. dentist] in [area/city]?" Screenshot the answer. Then check the businesses it named. Write only what you actually saw.

Poster text (your real ChatGPT screenshot, business names blurred if you want):

- I ASKED CHATGPT:
- **"Best [service] in [city]?"**
- It named [number] businesses. Here's what they had in common:
- [real pattern 1, e.g. 100+ Google reviews]
- [real pattern 2, e.g. a clear website page for that exact service]
- [real pattern 3, e.g. listed on Justdial / Practo with the same details]
- Sakthi · Founder, Astra Nexora

CAPTION (COPY-PASTE)

I asked ChatGPT: "Who is the best [service] in [city]?"

It named [number] businesses.

So I checked every one of them. Here's what they had in common:

→ [real pattern 1]
→ [real pattern 2]
→ [real pattern 3]

And here's what the businesses it didn't name were missing:
→ [real gap you noticed]

More customers now ask AI before they search Google.
If AI can't find clear, consistent information about you, you're not in the answer.

4 · Tue 15 Dec: ₹5,000 website vs ₹50,000 website

Poster text (two columns):

- ₹5,000 WEBSITE vs ₹50,000 WEBSITE
- **What's actually different?**
- ₹5,000: a template with your logo · stock photos · "Contact us" page · no SEO setup · you're on your own after launch
- ₹50,000: built around how your customers decide · real photos and content · WhatsApp and call in one tap · speed, SEO and tracking set up · someone to fix it when it breaks
- The question isn't the price. It's what one new customer is worth to you.
- Sakthi · Founder, Astra Nexora

CAPTION (COPY-PASTE)

"Why should I pay ₹50,000 for a website when someone will do it for ₹5,000?"

Fair question. Here's what usually changes:

₹5,000 website
→ A template with your logo
→ Stock photos and generic text
→ A "Contact us" page
→ No speed, SEO or tracking setup
→ You're on your own after launch

₹50,000 website
→ Built around how your customers decide
→ Real photos, real content, clear prices or ranges
→ WhatsApp and call in one tap
→ Speed, SEO and enquiry tracking set up
→ Someone to fix it when it breaks

A cheap website isn't a bad decision. A website that doesn't bring enquiries is.

The real question: what's one new customer worth to you?

Which one did you pay for, and was it worth it? 👇

5 · Fri 18 Dec: Myth, "SEO is dead because of AI"

Poster text:

- MYTH vs FACT
- MYTH: **"SEO is dead because of AI."**
- FACT: AI answers are built from websites, reviews and listings. Clear, accurate content matters more now, not less.
- What still works: pages that answer real questions · consistent name, address and phone everywhere · real reviews · fast, mobile-friendly pages
- Sakthi · Founder, Astra Nexora

CAPTION (COPY-PASTE)

"SEO is dead. Everyone uses ChatGPT now."

I hear this every week. Here's the problem with it:

AI doesn't invent its answers.
It builds them from websites, reviews, directories and Google listings.

So when AI recommends a business, it's picking the one that's:
→ Described clearly on its own website
→ Listed with the same name, address and phone everywhere
→ Backed by real, recent reviews
→ Answering the questions customers actually ask

That's SEO.

What's dying is the old version: keyword stuffing, thin pages and buying links.

What matters now is being the clearest, most trusted answer, for Google and for AI.

Agree or disagree? 👇

6 · Tue 22 Dec: 4 systems I built this year

Poster text (a simple 4-box layout, screenshots of each system if you have them):

- BEHIND THE SCENES · 2026
- **4 systems I built this year**
- 01 · A social media assistant: one poster in, captions and schedules for 4 platforms out
- 02 · A lead outreach system: finds businesses, tests their website speed, sends one personal email
- 03 · WhatsApp booking for a dental clinic: one tap from form to WhatsApp
- 04 · A case booking dashboard for a dental lab: every booking in one place
- Automate the research. Keep the relationship.
- Sakthi · Founder, Astra Nexora

CAPTION (COPY-PASTE)

I didn't hire anyone this year.
I built systems instead.

4 of them, and what they changed:

1. A social media assistant
I make the poster. It writes the captions for each platform and schedules them.
→ My own marketing finally stopped slipping.

2. A lead outreach system
It finds businesses, tests their website speed and sends one short, personal email.
→ Research to a personal email in under a minute.

3. WhatsApp booking for a dental clinic
A short form that opens WhatsApp with the request already filled in.
→ Every booking request reaches the team with the patient's details.

4. A case booking dashboard for a dental lab
Clinics pick a slot, the lab sees every case in one place.
→ Nobody chases bookings on WhatsApp anymore.

The rule behind all of them: automate the research and the repetitive work. Keep the relationship human.

What's one task you'd automate first if you could? 👇

9 · Thu 31 Dec: 5 marketing shifts for 2027

Poster text:

- 2027
- **5 marketing shifts small businesses can't ignore**
- 1. Customers ask AI before they ask Google
- 2. Reviews matter more than ads
- 3. WhatsApp is the new website contact form
- 4. Real photos beat polished stock
- 5. Speed of reply wins the sale
- Sakthi · Founder, Astra Nexora

CAPTION (COPY-PASTE)

5 marketing shifts small businesses can't ignore in 2027:

1. Customers ask AI before they ask Google
If ChatGPT can't find clear information about you, you're not in the answer.

2. Reviews matter more than ads
People trust 100 real customers more than one well-made ad.

3. WhatsApp is the new contact form
Most customers would rather message than fill in a form or call.

4. Real beats polished
Real photos of your place and your team build more trust than perfect stock images.

5. Speed of reply wins the sale
The business that answers first usually gets the customer.

None of these need a big budget. They need consistency.

Which one is your business ready for? 👇

Happy New Year in advance 🎉

B · Sat 5 Dec: What clients say vs what they mean

Poster text (two-column table):

- WHAT CLIENTS SAY vs WHAT THEY MEAN
- "Just a small change" → Redo the whole page
- "Can you make it pop?" → I'm not sure what I want, but not this
- "It's urgent" → I'll reply to your question in 4 days
- "Quick call?" → 45 minutes
- "Our budget is small" → Our budget is smaller than that
- "My nephew can do it cheaper" → I'll be back in 3 months
- Sakthi · Founder, Astra Nexora

CAPTION (COPY-PASTE)

What clients say vs what they actually mean:

"Just a small change"
→ Redo the whole page

"Can you make it pop?"
→ I'm not sure what I want, but it's not this

"It's urgent"
→ I'll reply to your question in 4 days

"Can we jump on a quick call?"
→ 45 minutes

"Our budget is small"
→ Our budget is smaller than that

"My nephew can do it cheaper"
→ I'll be back in 3 months

To be fair, I've said at least three of these to my own vendors. 😅

B: "Your birthday cake, ready in 3 hours. Eggless options too. WhatsApp us your date."

Which one makes you order?

Most business posts sound like A.
They describe the product. They don't answer the customer's real questions:
→ Will it be ready in time?
→ Does it work for me?
→ How do I order, right now?

Write for the person reading, not for the product.

D · Mon 7 Dec: It's a follow-up problem

Poster text:

- UNPOPULAR OPINION
- Most small businesses don't have a marketing problem.
- **They have a follow-up problem.**
- A 9 PM WhatsApp answered the next afternoon · A missed call nobody returns · A quote sent, then silence · "I'll think about it", and nobody asks again
- Fix the follow-up first. Then buy more traffic.
- Sakthi · Founder, Astra Nexora

CAPTION (COPY-PASTE)

Unpopular opinion:

Most small businesses don't have a marketing problem.
They have a follow-up problem.

The enquiries are already coming in.

→ A WhatsApp message at 9 PM that gets a reply the next afternoon
→ A missed call nobody calls back
→ A quote sent, and then silence
→ "I'll think about it", and nobody ever asks again

By the time the business replies, the customer has already asked someone else.

Before you spend another rupee on ads, check this:
How long does it take you to reply to a new enquiry?

Under 5 minutes: you're winning more than you think.
Over an hour: you're paying for leads and handing them to your competitors.

Fix the follow-up first. Then buy more traffic.

Business owners, be honest: what's your average reply time? 👇

F · Thu 10 Dec: Boost button vs Ads Manager

Poster text (two columns):

- BOOST BUTTON vs ADS MANAGER
- **Same money. Very different results.**
- Boost: 2 clicks · basic audience · usually optimised for likes and reach · limited tracking
- Ads Manager: more setup · detailed audience and placements · choose leads, messages or sales · track cost per enquiry
- Boost for visibility. Ads Manager for customers.
- Sakthi · Founder, Astra Nexora

CAPTION (COPY-PASTE)

"I boosted a post for ₹2,000 and got 300 likes. Zero customers."

I hear this a lot. The Boost button isn't wrong. It's just built for something else.

Boost button
→ 2 clicks and it's live
→ Basic audience options
→ Usually optimised for engagement and reach
→ Limited tracking

Ads Manager
→ Takes 20 minutes to set up
→ Detailed audience, placements and budgets
→ You choose the goal: leads, WhatsApp messages, sales
→ You can see what each enquiry cost

Boost when you want people to see something.
Use Ads Manager when you want them to do something.

G · Sat 12 Dec: You lost this customer in 60 seconds

Poster text (a timeline):

- YOU LOST THIS CUSTOMER IN 60 SECONDS
- 0:00 · Searches "[service] near me"
- 0:08 · Finds you on Google Maps
- 0:15 · Sees 6 reviews. The last one is 2 years old.
- 0:30 · Opens your website
- 0:42 · Can't find a price or a WhatsApp button
- 0:55 · Taps back
- 1:00 · **Calls your competitor**
- You never knew they were there.
- Sakthi · Founder, Astra Nexora

CAPTION (COPY-PASTE)

You lost a customer today.
You'll never know it happened.

0:00 · They search "[service] near me"
0:08 · They find you on Google Maps
0:15 · They see 6 reviews. The last one is 2 years old.
0:30 · They open your website
0:42 · They can't find a price, or a WhatsApp button
0:55 · They tap back
1:00 · They call your competitor

No missed call. No message. No trace.

Every step is fixable:
→ Ask for reviews every week
→ Show a price, a range, or what affects the price
→ Put a WhatsApp button where the thumb is

H · Sun 13 Dec: 5 things I stopped doing this year

Format: your real photo. Keep only the lines that are true for you, and replace any that aren't.

Poster text (on your real photo):

- 5 THINGS I STOPPED DOING IN 2026
- 1. Saying yes to every project
- 2. Starting work without a written scope
- 3. Doing repetitive work by hand
- 4. Pricing to win, not to deliver
- 5. Ignoring my own marketing
- Sakthi · Founder, Astra Nexora

CAPTION (COPY-PASTE)

5 things I stopped doing this year:

1. Saying yes to every project
Some work pays the bills and drains the month. Not every client is the right client.

2. Starting work without a written scope
"Just a small change" is how 2-day projects become 2-week projects.

3. Doing repetitive work by hand
If I do it every week, I build a system for it.

4. Pricing to win the deal
Cheap prices won me the wrong clients. Fair prices let me do the job properly.

5. Ignoring my own marketing
I grew other brands and forgot mine. Not anymore.

Stopping things made more difference than starting new ones.

What's one thing you stopped doing this year? 👇

J · Wed 16 Dec: The 3-second website test

Poster text (a phone with a website and a stopwatch):

- THE 3-SECOND WEBSITE TEST
- Open your website on your phone. In 3 seconds, can a stranger answer:
- **1. What do you do?**
- **2. Where?**
- **3. How do I contact you?**
- If not, you're losing visitors before they scroll.
- Sakthi · Founder, Astra Nexora

CAPTION (COPY-PASTE)

Try this right now. It takes 3 seconds.

Open your website on your phone.
Show it to someone who doesn't know your business.
Count to 3, then take the phone back.

Can they answer:
1. What do you do?
2. Where are you?
3. How do they contact you?

If they can't, most visitors can't either. And they leave before they scroll.

The fix is usually one line and one button:
→ A headline that says "[service] in [area]", not "Welcome"
→ A WhatsApp or call button at the top

Did your website pass? 👇

Poster text:

- HAPPY CUSTOMERS DON'T LEAVE REVIEWS
- **Unless you do these 4 things.**
- 1. Ask on the same day, while they're happy
- 2. Send the direct review link on WhatsApp

- 4. Reply to every review, so people see you care
- Never buy reviews. Never offer gifts for reviews.
- Sakthi · Founder, Astra Nexora

CAPTION (COPY-PASTE)

Your happy customers won't leave a review.
Not because they don't like you. Because nobody asked.

4 things that work:

1. Ask on the same day
Right after the service, while they're still happy.

2. Send the direct link on WhatsApp
Google Business Profile → "Ask for reviews" gives you a short link. One tap and they're writing.

3. Put a QR code at the counter
For customers who pay and leave.

4. Reply to every review
People leave reviews where they see the owner reads them.

And two things never to do: buy reviews, or offer gifts in exchange for reviews. Google can remove them, and customers can tell.

- THE ONLY NUMBER THAT MATTERS
- **Cost per enquiry**
- Example: ₹10,000 spent ÷ 20 enquiries = ₹500 per enquiry
- Not likes. Not reach. Not followers.
- Know this number for every channel.
- Sakthi · Founder, Astra Nexora

CAPTION (COPY-PASTE)

Likes, reach, impressions, followers.

None of them pay your bills.

The number that matters: cost per enquiry.

How to work it out:
Money spent ÷ number of enquiries = cost per enquiry

Example: ₹10,000 on ads ÷ 20 enquiries = ₹500 per enquiry.

Now compare channels:
→ Google Ads: ₹___ per enquiry
→ Instagram ads: ₹___ per enquiry
→ SEO: ₹___ per enquiry

Put more money where the number is lowest. Fix or stop where it's highest.

O · Wed 23 Dec: Christmas offers without a discount

Poster text:

- CHRISTMAS OFFERS
- **that don't need a discount**
- 🎁 A free add-on with the main service
- 🎁 A gift card customers can buy for someone else
- 🎁 A bonus for customers who bring a friend
- 🎁 "Book this week, get priority in January"
- Sakthi · Founder, Astra Nexora

CAPTION (COPY-PASTE)

Christmas is 2 days away.
You don't need a 30% discount to bring customers in.

4 offers that protect your price:

🎁 A free add-on with the main service
Small cost to you, big value to them.

🎁 Gift cards
Let customers buy your service for someone else. New customer, paid in advance.

🎁 Bring-a-friend bonus
Your happiest customers are your best marketing.

🎁 "Book this week, get priority in January"
A reason to decide now, without cutting the price.

Running a Christmas offer this year? Tell me what it is 👇

P · Thu 24 Dec: 7 things to do online before 1 January

Poster text (a checklist):

- BEFORE 1 JANUARY
- **7 things to do online for your business**
- ☐ Add holiday hours on Google
- ☐ Check your domain renewal date
- ☐ Back up your website
- ☐ Download this year's analytics
- ☐ Ask December customers for reviews
- ☐ Add new photos to your Google profile
- ☐ Plan your January posts
- Save this 📌
- Sakthi · Founder, Astra Nexora

CAPTION (COPY-PASTE)

7 things to do for your business online before 1 January:

☐ Add holiday hours on Google Business Profile
Customers will check before they come.

☐ Check your domain renewal date
An expired domain takes your website and email down with it.

☐ Back up your website
Takes 10 minutes. Saves weeks if something breaks.

☐ Download this year's analytics
You'll want to compare next December.

☐ Ask December customers for reviews
Busy month, happy customers. Don't waste it.

☐ Add new photos to your Google profile
New year, fresh look.

☐ Plan your January posts
January is when people decide what to fix. Be visible.

Save this, and tick them off this week 📌

Q · Sat 26 Dec: Google yourself like a customer

Poster text:

- GOOGLE YOURSELF LIKE A CUSTOMER
- 1. Search "[your service] near me" from your phone
- 2. Do you show up on Maps?
- 3. Read your last 5 reviews
- 4. Open your website. Find the WhatsApp button.
- 5. Message yourself. How long until someone replies?
- **Would you choose you?**
- Sakthi · Founder, Astra Nexora

CAPTION (COPY-PASTE)

Do this once before the year ends.
It takes 10 minutes, and it's the most honest marketing audit you'll ever get.

Pretend you're a customer:

1. Search "[your service] near me" on your phone
Do you show up? Where?

2. Look at your Google Maps listing
Photos, hours, reviews. Would you trust it?

3. Read your last 5 reviews
And your replies to them.

4. Open your website
How long until you find the price and the WhatsApp button?

5. Message your own business
How long until someone replies?

Then ask yourself one question:
Would you choose you?

Try it and tell me what surprised you 👇

R · Sun 27 Dec: What your local tea shop knows about marketing

Poster text (a warm photo of a roadside tea shop):

- WHAT YOUR LOCAL TEA SHOP KNOWS ABOUT MARKETING
- ☕ Knows your name and your order
- ☕ Open at the same time every single day
- ☕ Same taste, every cup
- ☕ Never runs an ad. Always busy.
- **Consistency is the marketing.**
- Sakthi · Founder, Astra Nexora

CAPTION (COPY-PASTE)

The tea shop near your office has never run an ad.
It's busy every single day.

What it knows about marketing:

☕ It knows your name and your order
Customers come back to people who remember them.

☕ It opens at the same time every day
Reliability builds habits.

☕ The tea tastes the same every time
Consistency builds trust faster than any campaign.

☕ Everyone talks about it
Word of mouth is still the best marketing there is. Today it's called Google reviews.

Most businesses look for a new marketing trick.
The tea shop just does the basics, every day, without fail.

S · Mon 28 Dec: 7 agency red flags

Poster text:

- 7 AGENCY RED FLAGS 🚩
- 🚩 "Guaranteed first page on Google"
- 🚩 They won't say who does the work
- 🚩 Reports full of likes, no enquiries
- 🚩 The ad account is in their name
- 🚩 Long lock-in contract from day one
- 🚩 No examples of similar work
- 🚩 They never ask about your business
- Sakthi · Founder, Astra Nexora

CAPTION (COPY-PASTE)

Hiring a marketing agency in 2027? Walk away if you see these:

🚩 "Guaranteed first page on Google"
Nobody can guarantee Google rankings.

🚩 They won't say who will actually do the work
The person who sold it to you isn't always the person doing it.

🚩 Reports full of likes and reach, no enquiries
Ask for enquiries and cost per enquiry.

🚩 Your ad account or domain is in their name
You should own your accounts. Always.

🚩 A long lock-in contract from day one
Good work keeps clients. Contracts shouldn't have to.

🚩 No examples of similar work
Ask to see it.

🚩 They never ask about your business
If they don't ask who your customers are, they can't market to them.

(Yes, I run an agency. Hold me to these too.)

Which red flag have you seen? 👇

T · Wed 30 Dec: Marketing phrases I never want to hear again

Poster text:

- MARKETING PHRASES I NEVER WANT TO HEAR IN 2027
- ❌ "Make it go viral"
- ❌ "Just a small change"
- ❌ "Can you make it pop?"
- ❌ "We don't need a website, we have Instagram"
- ❌ "Let's boost it and see"
- ❌ "Our customers don't use Google"
- Sakthi · Founder, Astra Nexora

CAPTION (COPY-PASTE)

Marketing phrases I never want to hear again in 2027:

❌ "Make it go viral"
Viral isn't a strategy. Useful and consistent is.

❌ "Just a small change"
It's never small.

❌ "Can you make it pop?"
Pop how? Bigger? Brighter? Different?

❌ "We don't need a website, we have Instagram"
Until the account gets hacked.

❌ "Let's boost it and see"
See what, exactly?

❌ "Our customers don't use Google"
They do. They just found your competitor there.

Which one would you add? 👇
